

Feola Suspension Continued

[continued from page 1]

lectmen's meeting May 10.

Selectman Chairman Arthur Clark suggested at last week's meeting that Feola be put back to work on limited service. After some discussion, involving Feola's father, Police Chief Randolph Feola, it in the middle. Thaxter said

was decided to continue his suspension with pay until an opinion from Town Counsel was given and until the outcome of the conference was known.

Town Counsel J. Blake Thaxter, said the next day that he hadn't heard a word about the postponement, but that it appears the town was caught

that Feola was charged with "something of sufficient magnitude not to have him running around as a policeman. The board is stuck with their position." A trial date may not be forthcoming until late July or early August.

Police Chief Feola said, "Randy has been losing at least \$200 a week of opportunities to work overtime and

details. He's been punished \$200 a week." Chief Feola commented that the case had been "overelaborated" and doubted that his son could receive a fair trial in this

county.

Patrolman Feola's only comment this week was that his trial would be "a full open public trial and very interesting."
